Atrion Launches Online Media Center

Media Center will be home to video case studies, peer perspectives, educational sessions and event clips.

Warwick, R.I. – Feb. 25, 2010 – Atrion Networking Corporation, a leading provider of Information Technology and managed services, today launched its new Media Center, www.atrionmedia.net. The Media Center is a dynamic portal that will be home to Atrion’s interactive media collateral, including case studies, peer perspectives, educational sessions and event clips presented in a video format.

In its launch, the Atrion Media Center features video vignettes, testimonials, highlights and follow up information from its Always On Imperative Symposium event. Additionally, a highlight clip recognizes Atrion as a 2009 Business Excellence Award winner; and a video case study examines how Gilbane Building Company transformed its cloud computing infrastructure from a cost-center into a revenue stream.

As it evolves, the Media Center will showcase additional client case studies; peer insight and best practices; event highlights; educational workshops, such as Atrion’s thinQ technical training workshops; and web-ex sessions, including from Atrion’s recently introduced Always On Academy.

“The Atrion Media Center is a visual experience for users,” said Melissa DelPrete, director of marketing for Atrion. “It is a when you want, where you want venue for visitors to watch and listen to the experiences of their peers across industries, catch up on the latest news and events and explore how to drive their own business initiatives and growth. We are excited to offer our clients this online resource and look forward to its evolution into a platform for learning and sharing information in a more meaningful way, such as video.”

The Atrion Media Center also offers links to upcoming Atrion news and events as well as social media and rss feeds.

About Atrion:

Established in 1987, Atrion specializes in the fusion of business and technology. Through a dedicated focus on our clients, we accelerate business productivity and satisfaction with full-scale customized technology solutions including consultation, project management, manufacturer-certified training, carrier services, telephony, software and application services, equipment procurement, local and wide area networks and managed services. Atrion’s multimedia division, Shazamm, offers innovative and interactive multimedia designs to enhance solution functionality and visibility. Atrion’s 1nService

affiliation allows it to service companies locally and internationally. We are a Cisco Gold Partner, Microsoft Gold Partner and placed 455 the 2009 VAR 500 list. To learn how we can empower your company, visit www.atrion.net.
